quiry. In Wheat the transactions were somewhat limited; offerings of only 100 bushels of inferior white, which sold at 175; 1582 bushels red changed hands at 210, 215, 225, 237, 238, 240 and 247, according to the quality, which was from ordinary to good. In the price of Corn there has been a decline of 3a4c, with sales of 170) bushels mixed at 124a125; some small lots of yellow brought 125; sales of new at 100, and Corn in the ear held at \$4 50 per bbl. Oats in fair request, with sales at 68, 70 and 71. Rye steady, and sales reported at 150a153. Butter in brisk demand for good, which continues very

There was renewed activity and excitement on Saturday in the New York market for the Border State bonds, and there was a sharp advance generally over the quotations of Friday. Tennessees were the favorites, with sales up to 71 for the old, and 73 for the new bonds. The fact that most of the debt of this State is secured by liens on the railroads, makes them more popular than the issues of some of the other States. Virginias rose to 53 for the old and 60 for the new. North Carolinas were 681a68; for old, and 674a68 for new. There has been considerable realizing of profits, and hence the reaction from the recent high prices and great dating terms. excitement is quite natural.

Receipts of Produce, &c., by Railroad,

The following are the receipts of produce, &c., by the O, A. & M. R. R., for the week ending, October 17th, 1868: Corn 2031 bushels, wheat 4600, rye 785, oats 2334, corn meal 5, corn in ear 628, chestnuts 10, onions 20, potatoes 25, flaxseed 5, wool 4 sacks, sumac 969 sacks, hope 1 sack, hair 20 sacks, flour 210 bbls, wine 2 bbls, apples 144 bbls, peaches 1 bbl, fish 1 bbl, butter 76 firkins, eggs 42 bbls and boxes, fowls 7 coops, sundries 8 packages, staves 700, horses, cows, mules, calves, hogs, &c., 27, hides 26 bundles, bark 70 cords, sand 24 tons, rags 4400 lbs, wood 7 cords, iron bars, 100 lbs, old iron 20,706 lbs lumber 31,395 feet, pig iron and blooms 32,800 lbs, spikes 2000 lbs, old metal and brass 350 lbs, rope 1 coil, spokes 1800, bones 2500 lbs, cattle 1 car load, stone 1 car load, other freight 20 tons. Freight sent forward 900 tons.

The following are the receipts by the A., I. & H. R. R., for the week ending Oct. 17, 1868: 234, flour 114 bbls, apples 7 bbls, butter 19 bbls and kegs, eggs 12 bbls and boxes, whiskey 1 bbl, lime 3 bbls, chickens 12 coops, calves 6, wool 8 bags, sumac 7 bags, rags 7 bags, hogs 2 car loads, furniture 1 car load, wood 21 car loads, lumber 6 car loads.

NUMBERLAND COAL! For sale in quantity by W. A. SMOOT & CO.
oct 19-1m No. 3, King street.

## LOCAL ITEMS.

FROST WORK. - The morning dawned yester day on as beautiful an autumn day as often appears to those who love the keen frosty morning air, bracing and exhilarating. The heavy frost of the night before lay thick on leaf and flower. not yet wilted by the sun's rays, and sparkled in beauty on every exposed object. As the sun rose, the effects of the frost were plainly seen on the vegetation, which drooped and fell, as if scorched by fire. The torests had donned their richest robes of royal splendor, the more gorgeous for being evanescent, and with many-hued tints, mellowed and colored the landscape. This is to most persons the most healful season of the year, possessing the tonic powers of winter, without its discomforts, and free from the debilitating effects of sum mer, whilst retaining its pleasantness in a great measure. It is also the most picturesque. A'1 fading glories have a peculiar interest, and the dying summer is full of suggestive thoughts .-"We all do fade as a leaf," is the lesson written on tree and flower, and the many who will never see the spring buds open, and who feel the dull grasp of invalidism, dragging them down day by day, will look with saddened eyes winter comes sorrow and suffering to the poor and friendless, who pick up a precarious living during the summer, and whose lot is hard in prospect of the coming cold.

MANUFACTORY .- The Door, Sash and Blind our enterprising fellow citizens, Mr. Witmer resent all varieties of water towl unusually and his associates, at the northern end of Water street, heretofore noticed in our columns as one of the most complete and best arranged establishments of the kind, in the country, will be in full operation in the course of a few days. It will be under the superintendence of Mr. Lambdin, an experienced architect and builder. This useful factory, we hope and believe, will turn out to be a profitable investment to the proprietors, and prove of great benefit to our community, and to the surrounding country. It is to the successful progress of such undertakings that we look for great aid in the future of Alexandria. Every work of the kind gives employment to respectable mechanics-draws custom to our city-and increases the general business. Every kind of work executed in factories of the kind noticed will be done here in the best style, and on the most accommo-

COUNTRY ROADS .- We have referred on several occasions, lately, to the importance of improving the roads in the country leading to the towns, and villages, and railroad depots. Our country friends may be put to a little trouble and expense bythe improvement of these roads; but they would be amply compensated in a variety of ways. A great saving, indeed, would, in the end, be effected. Horses and mules, wagons and carts, would all be benefited. Transportation of produce would be facilitated. Time now is money. Let us then urge the repair of the country roads.

WASHINGTON AND ALEXANDRIA RAILROAD. The petition of the Alexandria and Washington Railroad Company, praying for a revocation of so much of the late order of the United States Circuit Court as relates to the appointment of Messrs. Stevens & Phelps receivers in the case of the Adams' Express Company vs. Wm. H. Marbury and others, was argued this morning before Judge Underwood, in chambers, but a decision was reserved. Messrs. Taylor and Claughton appeared for the petitioner, and Messrs. G. W. Brent and J. Dean Smith for Adams' Express Company.

PAVEMENTS. - In the notices of the many improvements in the way of buildings, &c. that we take pleasure in publishing, we wish we could add, a renovation of many pavements in different portions of our city-which are sadly in want of repair. Smooth, well paved sidewalks in a city are very desirable. The Southern sidewalk on Wilkes street, between Fairfax and Water, has recently been laid down, and is a specimen of what can be done, in this line.

BASE BALL.-A match game of base ball was played on Saturday evening last, on the grounds of the Monticello club near Colross, between the Jefferson club of Washington, and the Pioneer club of this city. It was one of the best contested games ever decided in this city, and though the Pioneers were defeated they played better than ever before-the score at the end of the seventh inning, standing Jeffersons 17, Pioneers 11.

BRICKS.-Bricks are said to be in demand here for shipment to other points. The brickmakers of Washington, it is stated, are seeking for suitable places in this neighborhood-the available material near that city being consumed. It is understood that a prominent brick-maker here lately had an order from Boston for 200,000 brick, which he was unable to farnish, not being able to supply the demand

RETAINED LETTERS .- Letters with the following addresses are retained in the post office of this city for want of the proper stamps: Miss Netty Ayre, Sandy Springs, Md.; Miss Mary near Falls Church, Va., at 2 o'clock p. m., on C. Dulancy, Upperville, Va.; R. Sinclair & SATURDAY, the 31st day of October, for the purpose of electing officers and a Board of Didon, Va.; Messrs. H. C. Towson & Bro., Shellina, Mo.; Orr & Manning, Leesburg, Va.

> WATCH HOUSE. - Affairs at the watch-house for the last week or so have been unusually quiet. On Saturday night last there were three lodgers there and last night two. As the cold weather is now rapidly approaching, it is more than probable that applications for sleeping quarters will be of nightly occurence.

> RIVER BOATS. -The steamer Wawaset, from Cone River, and the Columbia and Hi Livingston, from Baltimore and the Potomac Landings, arrived up yesterday evening on time, with good freights and many passengers. Among the freights were some fine fresh fish and some excellent oysters.

BAPTISING.—Many colored people were baptised yesterday in the Potomac, off Battery oct 19 BROOKES & TAYLOR, Rodgers.

COMMOTION. - Considerable commotion was created on the lower end of Union street, last night, about eight o'clock, by a drove of cattle that had been landed from the steamer Hi. Livingston, but which became unmanagable on their way to West End. Two of them got overboard, but were rescued, though one remained in the river all night.

CANAL NEWS .- Boats from Cumberland have commenced to arrive, and some six or seven reported at the canal basin this morning. At Georgetown boats are rapidly arriving, eighty-too having reported since Friday morning, increasing the number of arrivals for the month to three hundred and forty.

BETHEL MEETINGS. - In consequence of the coldness of the atmosphere yesterday, the bethel services, usually held on the King street wharf, were held in the rooms of the Corn Exchange, and will be held each Sunday evening fall and winter months.

THE STATE JOURNAL .- The presses of the State Journal, the Radical newspaper printed in this city for the last four or five years, will be on the frost work they may see no more, and taken down to-morrow, and, with the other sigh in vain for the renewed life and strength newspaper material of the office, be removed to which will never be their's again. With the Richmond, in which city it will be reissued in an enlarged form on Monday next.

GAME. - Three wild goese were killed yesterday on the flats immediately opposite this city, by a gupner named Wash Sutton, at one shot. He also killed during the day sixteen fine red Factory, and Planeing Machine, erected by necks. Reports from the lower Potomac rep-

> OYSTERS .- The supply of oysters at the docks this morning was large, and quality better then usual. The prices at which they were selling ranged from fifty ets. to one dollar and seventy-five ets. per bushel, according to size: those at the last figures being really splendid. -+dD+-

UNMANAGEABLE HORSE. - Yesterday evening while Mr. C. Augur was buggy riding, and but a short time after he had left his stable his horse became unmanageable, and before he could be quieted, succeeded in breaking the two shafts and one of the wheels of the buggy.

MAGAZINES. -- From Mr. George E. French's No. 95 King street, we have Frank Leslie's, and Godey's Lady's Books for the month of November-both filled with matter very interesting to the ladies.

DICKENS' WORKS .- Appletons' cheap and handsome edition of the works of Dickens have been issued-specimens of which, in seperate volumes, we have received from French's Book

ANDREW DULAND, a Minister of the Society of Friends, has appointed a meeting at the meeting house, on St. Asaph st., to morrow at 11 o'clock, and desires general invitation

PREPARING FOR SPORT .- A number of beautifully gotten up sleighs arrived here on the steamsphip George II. Stout from Philadelphia

Cow Run Over .- A cow was run over and killed by a treight train, on Henry street, last

POLICE REPORT-MAYOR'S OFFICE.-Taylor Reed, for disorderly conduct at the Canal basin on Saturday evening last, in obstructing the passage of canal boats through the locks, and for threatening the Superintendent, Mr. Uhler, was fined and discharged.

Samuel W. Blackburn and William F. Smith, two boys, for fighting and quarrelling in a canal boat at the canal basin, on Saturday last, were discharged upon the payment of

Ann Moseby, colored, on complaint of Lucy Carter, colored, for threatening to cut her with a knife, was fined and discharged.

MAGISTRATE'S OFFICE. - A warrant was apolied for by Owen Carroll for the arrest of Smith Ferguson, one of a party of boys who, on Saturday last, caught and rode to death a young steer belonging to complaintant.

GRAPES. - Messrs. Brookes & Taylor, at the sorner of Prince and Pitt street, who have in their store every nice thing that a first-class lalies grocery store should contain, received this morning a lot of delicious grapes, rut in boxes just the size for presents, and gentlemen whose lady friends have sweet teeth are recommended to go there and make investments.

JUST RECEIVED.

TELEGRAPHIC NEWS.

SPECIAL DISPATCHES TO THE GAZETTE

Destruction of Arms on Mississippi.

WASHINGTON, Oct. 19 .- It is known at the War Department that the arms taken from the steamer Hesper, and destroyed at Cat Island, in the Mississippi, below Memphis, were the private property of the Gov. of Arkansas, and Senator McDonald of that State, by whom they were purchased on private account, in expectation of their subsequent purchase by the Legislature. The fact that the arms were thrown overboard is held to be conclusive proof that armed resistence to the laws is not in contemplation by any parties in Arkansas as the Governor has telegraphed.

Presents from Madagascar. Washington, Oct. 19.—The Queen of Madagascar has presented to this government several beautiful presents, among them several in the last named place during the rest of the articles made of silk and cotton or thread, very heavy and rich-probably intended for table or bed spreads; also a silver-plated coffee urn, the workmanship of which is rather poor. The government will scknowlodge the compliment n suitable terms.

Death of a Catholic Priest. WORCESTER, MASS., October 19 .- Father O'Keefe, a Catholic priest, at Clinton, Mass., died suddenly this morning.

WHEAT. MAPES NITROGENIZED SUPER-PHOSimposed of only Bones and Bird Guano, dis

solved in sulphuric acid, and fermented with Fish Guano (containing 12 per cent. of Amonia), all being reduced by fermentation and sulphuric acid to a Fine Powder. Contains no insoluble mineral Phosphates, but is all available to the This soluble fertilizer shows by analysis the presence of 16 per cent. Soluble Phosphates, 39

per cent Bone Phosphates, and animal matter rielding 4 per cent. of Ammonia -being identica in composition, solubility, and availability t crops with the best mixture that can be made of one part Peruvian and three parts Flour of Bone. treated with sulphuric acid. The saving to the farmer in the cost of Mapes' Super-Phosphate over that of the mixture, is \$15 per ton. The Mapes' Super-Phosphate of Lime Com-

pany, being engaged in the manufacture of fish oil, are enabled not only to obtain large supplies of animal Ammoniacal material from the fish at low cost, but also to avail themselves of the economical process of fermentation, by the combination of the fresh animal matter with the Bones and Bird Guano, previously treated with acid in reducing their fertilizer to soluble form, and are thereby able to furnish a quickly-acting Soluble Ammoniated Super-Phosphate at no higher rates than charged for ordinary Super-Phosphates containing a large amount of insoluble mineral Guano.

In every instance reported, Mapes' Super-Phosphate has produced as early, vigorous growth, and more permanent effects, than Peruvian Guano. Like Barn-Yard Manure, when used on seeded down land, produces after the grain luxuriant crops of grass.

Send for descriptive pamphlet on culture of Wheat and its requirements, analysis of Mapes' Super-Phosphate by Prof. Gilham, of Elekmond, S. Dana Hayes, of Boston, and other prominent

FERTILIZERS. REDONDA GUANO.

THE CHEAPEST AND MOST SUCCESS EVER INTRODUCED INTO THIS COUNTRY.

The Redonda Guano has been used extensively for two years upon ereny description of crops and with the most unprecedenced success. Its results or, the various erops, and especially the wheat crop of the present season, has established its reputation beyond all others, and a demand unprecedented.

"Redonda" is a pure, natural Guano, entire ly uniform in its character, sold to the farmers as it is imported, and requires no preparation The extremely low price at which it is sold (the ordinary manufactured Phosphates costing over one hundred per cent above the price of

Redonda) is not the least important fact to the farmer. Pamphlets, containing testimonials from far-mers and planters, in the yland, Virginia, Del-aware and New York, from which we extract briefly the adjoining on wheat, together with reports and analysis of the most eminent chemists in the country, with full directions for its use, can be obtained at our warehouse or from

our various agents. PRICE \$30 PER TON REDONDA GUANO ON THE WHEAT CROP OF 1868.

Brookfield, near Richmond, Va., (

Messrs. C. T. Wortham & Co., Michmond: Dear Sirs: I purchased of you about five tons of Redonda Guano last Spring, which was ap lied upon my corn, when the earth was throw

to it, the last time. In the same held, at the same time, and in like manner, was applied Peruvian Guano and a mixture of Bones. I state that the corn upon which the Redenda Guano was used yielded the best of three applications.

P. C. WARWICE.

Near Grange C. H., Va., June 30, 1868. Messrs. Wm. Crichton & Son, Baltimore: Dear Sirs-Yours of the 18th instact came to hand in due time. I have waited until I finish ed my harvest before answering your letter, re-lative to the application of the Redonda Guano I received from you last fell. I used 7 tons of a Baitimore Phosphate of

Lime, and three tons of the Kodonda; I seeded them separately, upon the same quality of land in the same field; about 250 to 400 pounds were put to the acre with the drill, about the same quantity of the Baftimore Phosphate of Lime was used; I see no difference in the results I regrat I shall not be able to threch it sapa rately. I am confident it has paid me well Should like to get a few more tons next season. The Baltimore Phosphate cost me about \$70 a

ton, In haste. Yours respectfully,

JAMES W. WALKER, Jr. Oakland, Va., July 1st, 1868. Messrs. Wm. Crichton & Son. Gentlemen: I have received your letter of the 18th of June. The Redonda Guano that I

purchased of you, I applied with extremely sat-isfactory results, judging from the looks of the Many different kinds of fertilizers have been used in my vicinity, costing a great deal more money, but from what I have heard and seen, my crop of wheat is as good as that of any one else. I shall try it again this fall. After my wheat is threshed and I can

pare the yield, I can give you a more satisfa-

tory statement in regard to it. Vary resp'y

EDMUND R. COCKE. Your ob't. serv't., Sandy Springs Postoffice, Montgomery co., Md., June 24, 1868. Messrs. Win Crichton & Son.

Gentlemen: The Redonda Guano that we purchased of you last fall, has given us satisfaction. We applied it to wheat, corn, po tatoes and buckwheat. We sowed one field wheat broadcast, about 400 pounds to the acre, in Montgomery county, and harrowed it is, which looks well. On the same farm, in this county, we put in a field of buckwheat, which was as good as ever grew on land; about 200 pounds to the acre of the Redonda, was applied. The potatoes look well, and the Redonda has

made us as good crops as some of the fertilizers that cost us double the price the Redonda did.

We sowed a field of wheat last fall on our farm in Howard county, and put it in with a drill, we put about 300 pounds of Redonda to the acre. This wheat looks rather better than the wheat on the Montgomery farm, both put in the same week; we are so well pleased with it, that we used four tons this spring on corn, oats and potatoes, and the crops look well. We used it in our garden, and we think we have one of the "best market gardens" in the country .-Our neighbors say so at any rate. We are so well pleased with the Redonda Guano, that we intend to use ten tons this fall

on wheat. Yours, truly, RAWLINGS & SON. "Polar Grove," Queen Anne's co., ] August 15th, 1808.

Messrs. Wm. Crichton & Son: Gentlemen: The application of two-thirds of Redonds and one-third of Peruvian Guano at the rate of 200 lbs per acre with the drill to corn ground wheat, on 50 bushels seeding, (the greater portion being a light gravel soil) gave 16 bushels of wheat to the acre. On the balance of the field (by far the best wheat land) on 46 bushels seeding, I applied for a celebrated Super-Phosphate, costing \$50 per

ton, and & Peruvian Guano, which yielded 14 bushels of wheat to the acre. Upon a quarter farm, where I seeded 18 bushels, with the same proportions of Redonda and Peruvian, on the fallow, I made twenty lour bushels of wheat to the acre. I will want eight to ten tons of Redonda this

fall. Very respectfully yours, John R. Emony WM. CRICHTON & SON, General Agents for the United States,

BOWLY'S WHARF, BALTIMORE, MD. B. H. LAMBERT, Agent for Importers, Alex's sep 25-1m

DACIFIC GUANO COMPANY'S (CAPITAL S1.000,000.) SOLUBLE PACIFIC GUANO.

The value of this GUANO s now so well. moron and apprecialed, that it does not require further commendation from us. The Company owns the Guano Islands, and other sources of supply from which its raw ma-terial is drawn. Hence, this Guano, possessing such high excellence, can be brought into mar-

ket at a price not exceeding that of the ordinary Super-Phosphates of Lime. The large capital invested by this Company affords the surest guarantee of the continued excellence of their fertilizer, as the safety of their capital depends upon continued and permanent

Experience has shown that this Guano ripens the Wheat crop from five to six days earlier than the Super-Phosphates. It is the policy and purpose of the Company to furnish the best fertilizer that enterprise and capital, aided by the best scientific ability,

can bring into market, at the lowest possible cost to cr ...umers. KNOX & WATTLES, Commission Merchants, Agents 17, King st., Alexandria, Va.
